### Russian Line Is Split.

HEADQUARTERS OF THE AUS-RIAN ARMY IN POLAND, via London, August 9, 11 a.m.—The defeat of Russians Sunday in the fighting on the line between Lubartow and Mieshow resulted in driving the troops apart, leaving a large gap between Russian troops fighting north of Lubartow fied northeast across the Vieprz at Lessekowice, about twelve miles north of Lubartow, while those around Miechow fied northwest to reach the Vieprz by way of Baranow.

It is impossible at this moment to determine how serious a danger for the Russians this breach may prove, but probably they are amply protected. they are amply protected

probably they are amply protected against dangerous inroads upon their line of retreat by troops withdrawing from Ivangorod along the highway running parallel with the north bank of the Vieprz to Radzyn.

In resisting the Austrian advance the Russians made a desperate attack at Miechow. The retreat of their left wing over the Vieprz at Lessekowice was a rout of pronounced character. It is known that the number of prisoners considerably exceeds the 6,000 meners considerably exceeds the 6,000 men-tioned in the official report.

### Feeding the German Troops.

BERLIN. August 9, by wireless to ayville, N. Y.-An account of the nditions under which the German and Austrian armies are advancing through the districts of Poland devastated by the Russians before their retreat was given out by the Overseas News gency. It follows:

"The colossal scale on which arrangements were made to supply the armies caused a sensation in towns evacuated by the Russians. Hundreds of thousands of troops between the Vistula and the Bug are being fed as well as if they were at home. The men releive three warm meals daily. Great herds of cattle are driven behind the advancing troops. Millions of bottles mineral water are distributed among

"The railroads were reopened speedily by the Germans and Austrians, solving the problem of restoring facilities for prwarding troops by rail. The fur-shing of supplies to the men has been ecomplished, notwithstanding the fact at the Russians removed all such pplies and set fire to the villages be-re they retreated.

### Eight Cartridges Per Day.

"An officer of the Russian general staff said that Brest-Litovsk (on the Bug river east of Warsaw) would be unable to resist such a charge as that made by the army under Gen. von Woyrsch. Russian prisoners at Ivangorod say that for some time they receivd only eight cartridges daily.

The only representatives of neutra countries remaining at their posts at Warsaw are those of the United States and Norway. Attempts have been made and Norway. Attempts have been made to organize bands of marauders from the lower classes. A correspondent of the Tageblatt at Lemberg, Galicia, reports that a man who succeeded in escaping from Warsaw before its capture says that notwithstanding closest surveillance on the part of the Rus-sian authorities proclamations were circulated appealing to the people to sppose the military and pay off old scores against the Russians.

### Ovation for Prince Leopold.

"Prince Leopold of Bavaria received tremendous ovation when he entered Warsaw. Citizens of neutral countries, particularly American newspaper correspondents, participated in the cele-Germans as liberators. The people disregarded orders to leave the town be-fore its evacuation. Families of peasants driven by the Russians into War-saw already have been sent back to their homes.

"There were similar scenes of popular rejoicing when the Germans occu-pied Ivangorod and Lublin, where large stores of flour and other ma-terials fell into the hands of the conquerors. The generals commanding the first arrivals of troops were greeted formally by representatives of the cities. The Germans promised that the new regime would be mild, provided the people obeyed police regulations."
